

Purpose of this Assignment

Create a watermark for inclusion in your Photoshop images.

You must create:

- A text layer and style containing the copyright symbol and your name.
 - Use an appropriate font & style combination.
 - Should be suitable for inclusion on *any* image.
- Place this layer on ONE of your postcards for submission/evaluation.

Grading Criteria

1. Is the text and layer styled?
2. Did you create and save a custom style for your watermark text?
3. Is the text readable?
4. Does the watermark convey some level of your personality?

Submitting the Assignment

- For this assignment, you must export the image as a pdf, place **all** edited/created images, graphics, and text files in a single folder (along with the PDF and .PSD files), and “zip” the file for upload onto the shared drive space. Please DO NOT include the original unedited files provided by your instructor.
- Filename: PhotoShop_Watermark_[Last_Name].zip
- Upload the file into the folder labeled “Watermarks” on the MC-Shared-Drive.
